Hear from Your Peers

"I've seen patients benefit immensely when they experience continuity of care in action.

When one of my patients presented at the hospital, the hospital team looked in Netcare and saw the Community Encounter Digest – which is made possible through CII/CPAR – and it showed I had seen the patient three times in the prior two weeks for hypertension. The team called me and I shared information about the treatment plan.

This connection and information sharing resulted in a more optimal patient outcome."

Dr. Andie Bains, Family Physician
