

# Importance of Honoring Health Care Worker Contracts

*Most of the costs associated with health care in Alberta today are related to costs of paying those who provide the health care services – Doctors, nurses and other health care system employees, and these costs are established through negotiated agreements or contracts.*

*"Generally speaking, when trying to reduce health care costs how important would you say it is for the provincial government to honor the current contracts with health care workers?"*

Base: All respondents (n=1,363)
