Today's Agenda

- Milestones!
- General Updates
- Call-back re: EMR panel size vs. CPAR panel size
- Ask anything

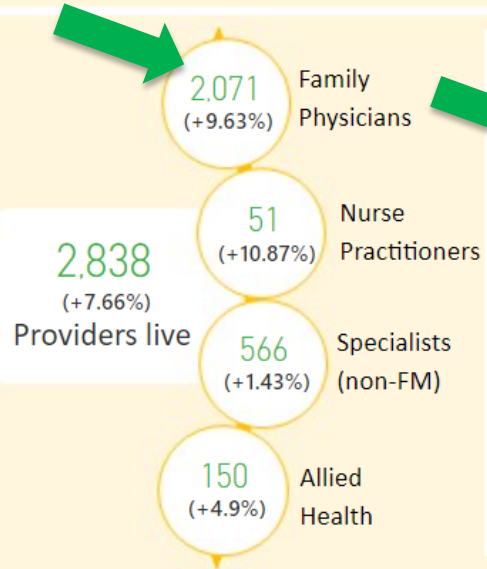

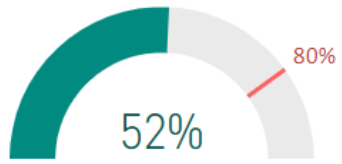

Plenty to Celebrate!

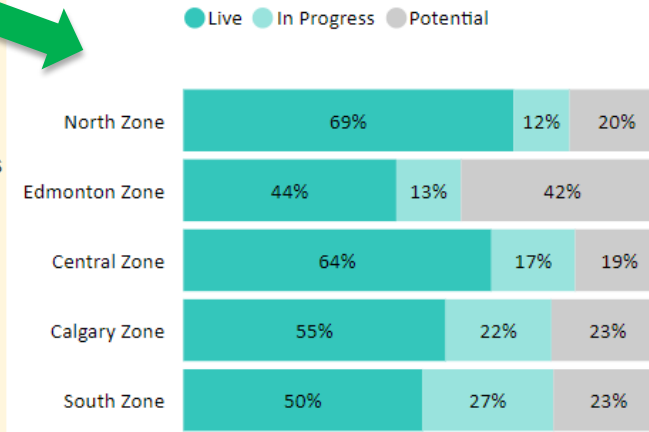

Provincial Participation

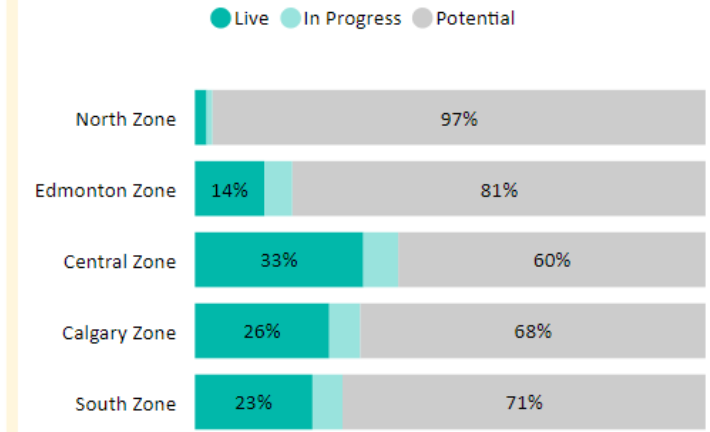

Overall CII/CPAR adoption

PCN Physicians Participation

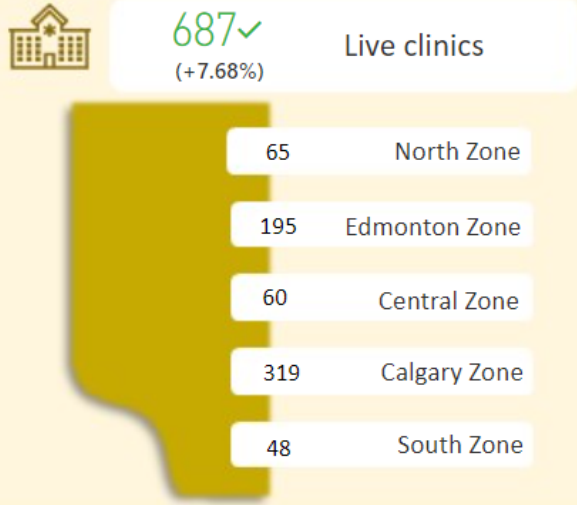

Specialists (non-FM) Participation

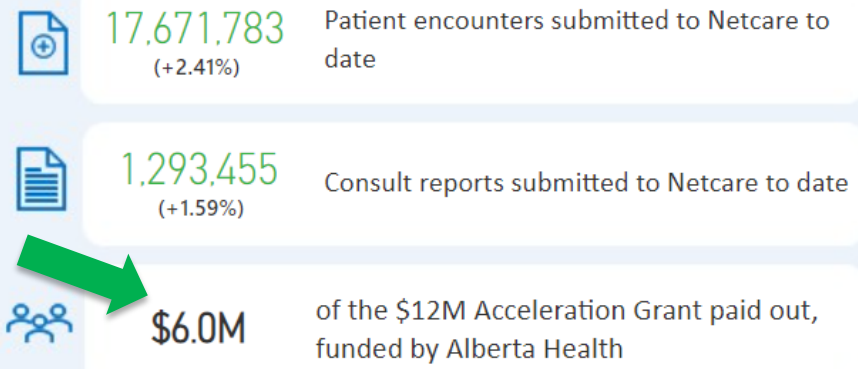

PCN affiliated pediatricians included

70%
PCN family physicians adopted CII/CPAR

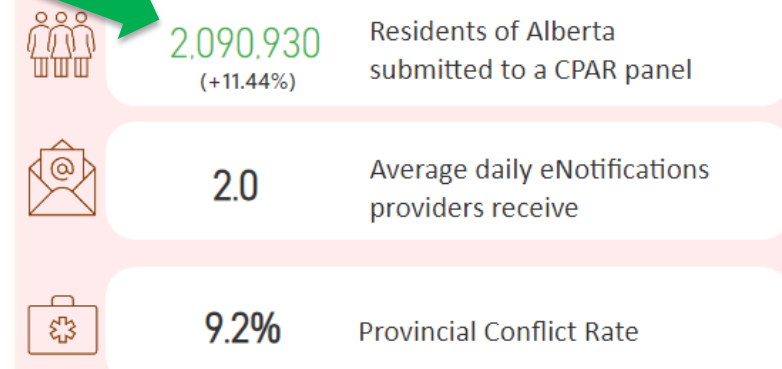

26%
Eligible non-FM specialists adopted CII/CPAR

Alberta Netcare Portal *An Enhanced Record*

Central Patient Attachment Registry (CPAR) *Establishing Patient Relationships and Keeping Providers Informed*

General Updates

General Updates

- Pediatric panels no longer generate conflicts w/GPs
 - 42% in Jan 2024; about 2% now
- CPAR provider displayed in Connect Care – still in development
- eNotifications – some to be shut-off to reduce duplications from Connect Care facilities
- CII improvements in the works:
 - Electronic Referral System
 - Patient Summary
 - eOrdering

General Updates

- Allied Health professionals still on hold
 - Can transition some to Encounters instead of Consults in PS Suite
- Juno/Oscar will begin the conformance process!
- Electronic Confirmation of Participation form is being piloted this week!

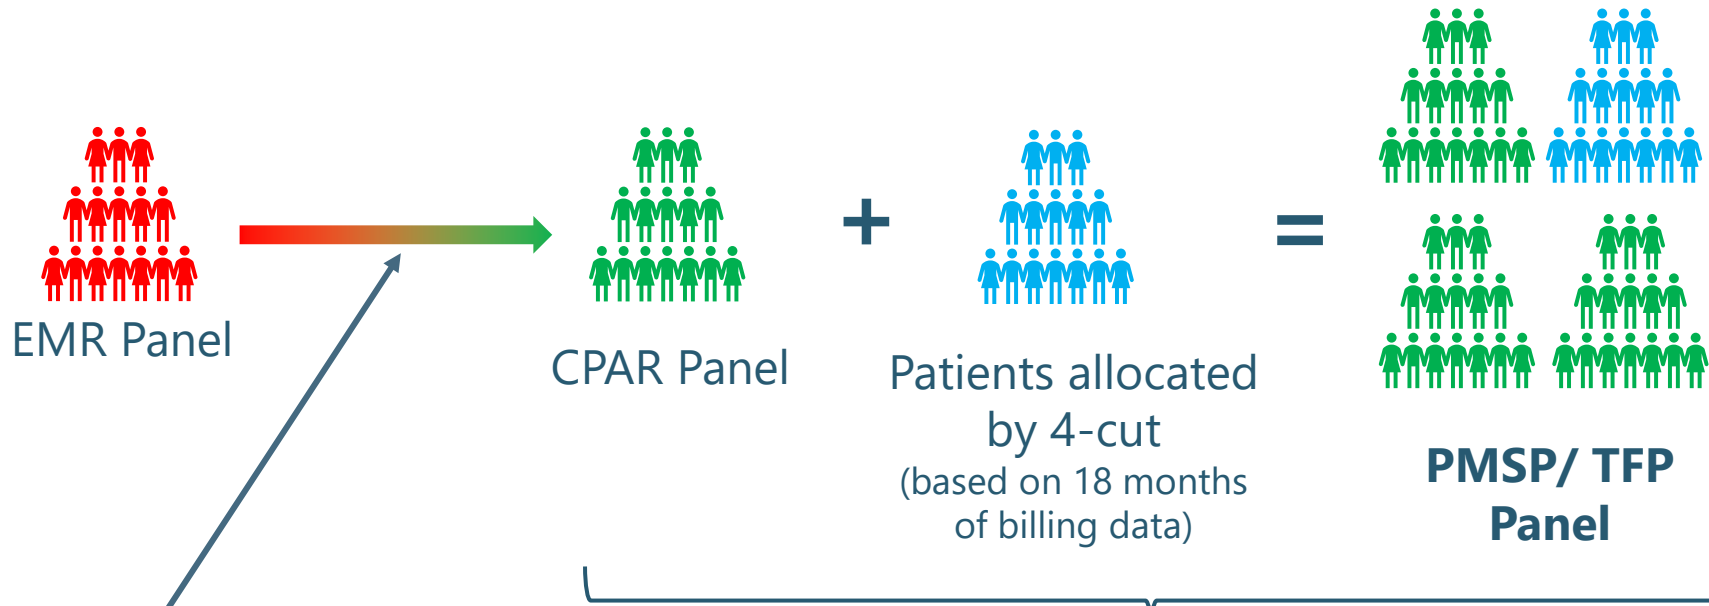

Call-back to last Connect: CPAR Panel & EMR Panel Reconciliation

PMSP & TFP Panel Size Calculation

CPAR + Top Up Allocation Method

This is our focus today. Making sure all the patient you want to include in the CPAR panel are flowing from your EMR to CPAR.

Demographic mismatches, conflicts, and billing data can all impact AH panel size estimates; this will not be covered today.

Troubleshooting Process

- **Step 1:** Run an EMR search to determine the panel size expected by the provider
- **Step 2:** Use the CPAR portal to determine the panel size successfully uploaded to CPAR
- **Step 3:** Compare these two panel sizes
- **Step 4:** Run EMR searches to determine which patients are not being uploaded to CPAR and why
